

Georgia Child Support Guidelines Calculators

User Guide Helpful Information for using the Printable Standard Paper Worksheet for Hand Calculations

General Information

This version of the Child Support Guidelines Standard Paper Worksheet is a Microsoft Excel™ file (.xlt), intended for download only. This version does not contain formulas to assist one in completing the worksheet and schedules. This version does allow one to enter and calculate the child support obligation completely by hand. It is recommended when using this calculator that you have these items available: a pencil with eraser, black or blue ink pen, a handheld calculator and scratch paper. It is also suggested that you print two copies of the worksheet and schedules. Use one as your working copy where you perform all calculations in pencil. Detailed, line-by-line instructions appear throughout this schedule. Refer to and use those instructions when completing the Worksheet and each Schedule. Once you have completed the worksheet and believe your calculations are correct, transfer all information onto the other copy and use it as your original and final worksheet and schedules. Use black or blue ink pen when completing the final worksheet as this will be the original worksheet filed with the Clerk of Court. Be sure to make at least two copies of the final worksheet and all schedules. Retain one copy for yourself, and supply the other copy to the Judge when you attend court.

Printing the File

You can move between the worksheets by single clicking any tab at the bottom of the Excel spreadsheet. Use the print icon in the Excel application to separately print the worksheet and each schedule.

Step 1 – To begin, click the tab for CS Worksheet

The Child Support Worksheet will display all of the final calculations as captured from the Schedules. Detailed line-by-line instructions appear throughout this schedule. Refer to and use those instructions when completing this Schedule.

Locate the instruction at the top area of the page that begins with "**Start Here**". That is where one will begin the Child Support Worksheet. Complete all lines of information as they pertain to the current case. Information included will be the court, county, Civil Action Case No.; a check box to indicate if the case is an action filed with the Office of Child Support Services (OCSS); names of the Mother, Father and Nonparent Custodian, if one is involved in the current action; the OCSS IV-D Case No. (if applies to this action); and the name of the person submitting the worksheet. Write in the name of the Noncustodial Parent, the Mother or Father, on the line provided. (If the case includes a Nonparent Custodian, both parents are considered Noncustodial Parents.) Indicate if the case is an Initial or Modification action by placing an "X" in the appropriate box. For Modification actions, enter the "Date of the Initial Support Order". Finally, add the children to the worksheet. Write each child's name in the fields provided in the order of 1, 2, 3, etc. through 6. All children listed here are considered part of the current case.

Stop at this point and do not enter any other information yet on the Worksheet. Instead, continue to Schedule A and complete the fields that apply to your case. Instructions appear on the schedules that tell you when to record amounts from the schedules to the worksheet and where to place those amounts. As you enter those amounts on the worksheet, the instructions there will then tell you what to do next on that line. (Exp.: to add an amount to the line before and where to enter that combined answer.)

Step 2 - Continue with Schedule A

Schedule A, Gross Income. Detailed line-by-line instructions appear throughout this schedule. Refer to and use those instructions when completing this Schedule.

The first question that appears on this schedule asks if either parent currently receives Temporary Assistance for Needy Families (TANF), a payment issued by the Division of Family and Children Services (DFCS). TANF recipients may still receive other income; if so, enter that income on this schedule in the appropriate field(s). Do not include income for a Nonparent Custodian. Enter all income as monthly amounts. Gross monthly income is entered under the appropriate column for each parent as indicated on Lines 1 - 22. The gross income is added together for each parent and entered on Line 23, and then the incomes of the two parents are added together for Line 23 and entered under the Combined column.

Step 3 - Continue with the Self-Employment Calculator, if needed

Self-Employment Calculator. Detailed line-by-line instructions appear throughout this schedule. Refer to and use those instructions when completing this Schedule.

Self-Employment income may be entered directly on Schedule A, Line 3, or it may be calculated using this Self-Employment Calculator. It is not mandatory for anyone to use the Self-Employment Calculator, but it is available.

Lines 1 - 3 describe the business; Lines 4 - 6 identify the gross receipts, sales and profit; Lines 7(a) - 7(q) are for the entry of business expenses; Line 8 is the total of those business expenses; and Line 9 reflects the Net Income. Line 10 allows one to add back in any expenses that were included at Lines 7(a) - (q) that are not deductible for child support. Line 11 represents the total of the non-deductible expenses on Line 10. Line 12 is used to total the Self-Employment income; and Line 13 is the final amount of Self-Employment income that is entered on Schedule A, Line 3.

Step 4 - Continue with Schedule B, if needed

Schedule B, Adjusted Income. Detailed line-by-line instructions appear throughout this schedule. Refer to and use those instructions when completing this schedule.

Adjusted Income calculated on this schedule is determined by deducting from the Gross Income the 1) Self Employment Income on which a parent paid Self-Employment Taxes for FICA and Medicare, 2) Preexisting Orders being paid for other children, and 3) Qualified Other Children.

Self-Employment Tax Adjustment: The line instructions explain what amounts to enter and multiply to find the final answer on Line 6 for this section.

If Pre-Existing Support Orders apply, enter the information and amounts starting at Line 7(a). Follow the line instructions to reach an answer on Line 9 for this section.

If after reading Questions A – E, you believe Qualified Children apply, enter the required information on Line 10. Check the box under "Mark X if Mother (or Father) is Claiming Credit" to indicate the parent wants to claim this child as a qualified child. Next, total the number of QUALIFIED children for whom adjustment is being claimed for each child and enter the answer for each parent at the end of that column. Finally, check the box under the *Date of Birth column* to indicate all children included here are part of the qualified other child *discretionary request*. Use Lines 11 - 14 to calculate the *discretionary adjustment to income to reach an answer on Line 14 for Mother and/or Father*.

Of the answers on Lines 9 and 14, only one answer will be recorded on the worksheet, Line 2 for each parent.

Schedule C is Reserved for Future Use (skip this blank schedule)

Step 5 - Continue with Schedule D

Schedule D, Additional Expenses for Work Related Child Care and Health Insurance. Detailed line-by-line instructions appear throughout this schedule. Refer to and use those instructions when completing this schedule.

Work Related Child Care and Health Insurance Premiums Paid for the Children are the only Additional Expenses included on this schedule. Begin by entering the Work Related Child Care for each Parent and/or the Nonparent Custodian on the Supplemental Table 1. Use Schedule D, Supplemental Tables 2, 3 or 4 when there are four or more children included in the current case.

If in the current case, Work Related Child Care expenses are not included, do not complete Supplemental Table 1 (children 1 - 3). If you do use this table, the amounts entered will be added together with all other supplemental tables, if used, on this schedule and display on Lines 1 through 5. The total of all Additional Expenses are then included on the Worksheet at Lines 6 and 8.

Step 5(a) - Continue with Schedule D Supplemental Tables 2, 3 and 4, if needed when case includes four or more children

Schedule D, Additional Expenses for Work Related Child Care and Health Insurance, Supplemental Tables 2, 3 and 4. Detailed line-by-line instructions appear throughout this schedule. Refer to and use those instructions when completing this schedule.

These Supplemental Tables are used only when there are four or more children in the current case. Each Supplemental Table will accommodate three children. (Exp.: Supplemental Table 2 is for children 4, 5 and 6.)

Work Related Child Care is the only type of expense entered on the Supplemental Tables for Schedule D. If the current case does not include four or more children, do not complete any supplemental table associated with Schedule D. If you do use the table(s), the amounts entered on all supplemental tables will be added together (tables 1, 2, 3 and 4, if populated with amounts) on Schedule D at Lines 1 - 5.

Step 6 - Continue with Schedule E

Schedule E is used to enter Deviations. Detailed line-by-line instructions appear throughout this schedule. Refer to and use those instructions when completing this schedule.

The Deviations, in the order in which they appear on this schedule are: Low Income Deviation (Lines 1(a) - 1(i)); Specific Deviations (Lines 2(b) - 9 and 11); Non-Specific Deviations (Line 10); Total Deviations for Extraordinary Educational, Medical and Special Expenses for Child Rearing (Lines 12(a) - 12(g)); Parenting Time Deviation (Line 13); ; and the individual expenses entered for children on Supplemental Tables 1, 2, 3 and 4 for Extraordinary Educational, Extraordinary Medical and Special Expenses for Child Rearing.

If in the current case, none of these expenses will be included, do not complete Supplemental Table 1 (children 1 - 3). If you do use this table, the amounts entered will be added together with all other supplemental tables, if used, on this schedule at Lines 12(a) through 12(g). **This amount should be entered only as a positive dollar amount on Line 13.** The Total of All Deviations are added and/or subtracted together on Line 14. Findings of Facts Questions B, C and D, must be answered IF Deviations are included on Schedule E.

Step 6(a) - Continue with Schedule E Supplemental Tables 2, 3 and 4, if needed when case includes four or more children

Schedule E Deviations, Supplemental Tables 2, 3 and 4. Detailed line-by-line instructions appear throughout this schedule. Refer to and use those instructions when completing this schedule.

These Supplemental Tables are used only when there are four or more children in the current case. Each Supplemental Table will accommodate three children. (Exp.: Supplemental Table 2 is for children 4, 5 and 6.)

There are three types of expenses entered on Schedule E, those expenses are Extraordinary Educational, Extraordinary Medical and Special Expenses for Child Rearing. If the current case does not include four or more children, do not complete any supplemental table. If you do use the table(s), the amounts entered will be added together with all of the supplemental tables (1, 2, 3 and 4, if populated with amounts) on Schedule E at Lines 12(a) through 12(g).

Step 7 - Finally, Review the CS Worksheet and all Schedules to finish

Review the Worksheet and all schedules to ensure accuracy and correctness of information. The Amount on Line 13 of the Worksheet is the Final Child Support Amount. Indicate the Schedules attached to Worksheet by checking the boxes under the Attached or Not Applicable columns.

(The answers on Line 14 may be negative or positive amounts.)

A. For each section completed, provide monthly amounts or other information as required by the instructions.

Low Income Deviation with Self Support Reserve

> Check this box if Noncustodial Parent's Gross Income is at or below \$1,850.00 per month and the Noncustodial Parent is requesting a calculation for Low Income Deviation with Self Support Reserve. >Otherwise, skip this entire section and begin at Line 2(a).

> Important: If the current case involves a Nonparent Custodian, <u>do not complete this section</u> for Low Income Deviation with Self Support Reserve. Continue to Specific and Nonspecific Deviations.		(a) Mother	(b) Father	Low Income Deviation, Line 1(i), is always treated as a deduction.
1(a).	> If Gross Income of Noncustodial Parent (Mother or Father) is at or below \$1,850.00 per month, enter Noncustodial Parent's Adjusted Gross Income from Line 2 of the Worksheet here on this line and under the appropriate column. > If Gross Income of Custodial Parent (Mother or Father) is at or below \$1,850.00 per month, enter Custodial Parent's Adjusted Gross Income from Line 2 of the Worksheet here on this line and under the appropriate column.	\$	\$	
1(b).	Self Support Reserve – enter here the sum of \$900.00 for each parent whose income is at or below \$1850 as found on Line 1(a) above.	\$	\$	
1(c).	Subtract amount(s) on Line 1(b) from Line 1(a); enter result(s) under appropriate column(s) to find amount of income available for child support after allowing for self support reserve on Line 1(b).	\$	\$

1(g).	> Enter one answer based on the two instructions provided here: If the amount on Line 1(e) is greater than the amount on Line 1(f), enter the amount from Line 1(e) in the NONCUSTODIAL Parent's column. However, if the amount on Line 1(f) is greater than the amount on Line 1(e), enter the amount from Line 1(f) in the NONCUSTODIAL Parent's column.	\$	\$	
1(h).	> Enter one answer based on the two instructions provided here: >If CUSTODIAL Parent is also considered a low income person (at or below \$1,850 gross income per month) AND amount on Line 1(c) for CUSTODIAL Parent is less than Line 1(d) for CUSTODIAL Parent; NONCUSTODIAL Parent is not allowed a deviation for self-support reserve. In this case, enter amount on line 1(d) for NONCUSTODIAL Parent here in NONCUSTODIAL Parent's column. >Otherwise, if amount on Line 1(c) for CUSTODIAL Parent is greater than or equal to amount on Line 1(d) for CUSTODIAL Parent, enter amount on Line 1(g) for NONCUSTODIAL Parent here in NONCUSTODIAL Parent's column.	\$	\$

Specific and Non-Specific Deviations (High Income and Other Amounts (Lines 2(b) through 11))

>Enter a positive (+) or negative (-) dollar amount in the appropriate column for deviations that apply to your case in order to increase or decrease the presumptive amount of child support on Line 9 of the Worksheet. >Only amounts listed in the noncustodial parent's column will affect the final child support calculation.

Terms	Explanation
Actual amount paid monthly	The amount of current child support being paid and averaged over a 12 month period as a result of a Preexisting Child Support Order that is supported by documentation including, but not limited to, a payment history from a court clerk, a IV-D agency, the Child Support Services Agency computer data base, canceled checks or other written proof of payments paid directly to the other Parent. Amounts paid on arrears are not included.
Adjusted Child Support Obligation	Adjusted child support obligation means the basic child support obligation adjusted by health insurance and work related child care costs.
Adjusted Income	Adjusted income means the determination of a parent's monthly income, calculated by deducting from that parent's monthly gross income one-half of the amount of any applicable self-employment taxes being paid by the parent, any preexisting order for current child support which is being paid by the parent, and any theoretical child support order for other qualified children, if allowed by the court. For further reference see paragraph (5) of subsection (f) of this Code section.
Alimony	Alimony is actual payment allowances for support made under a court order and usually given by a man or woman to his former partner after a divorce or legal separation for livelihood maintenance.
